Date of compilation: 18/06/2021

SAFETY DATA SHEET

This SDS is an english translation of COMMISSION REGULATION (EU) 2020/878, without any country-specific legislation

SAFETY DATA SHEET

BEYEM SR MARINE

SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

1.1. Product identifier:

Beyem SR Marine

UFI: VAS0-40N2-J00U-1TCW

1.2. Relevant identified uses of the substance or mixture and uses advised against:

Relevant uses: Construction product. (See Technical Data Sheet). Exclusive professional/industrial use.

Uses advised against: All uses not specified in this section or in section 7.3

1.3. Details of the supplier of the safety data sheet:

Name: Rodacal Beyem S.L.
Address: Carretera Madrid-Alicante km 213 Extramuro
02630 La Roda Albacete
Contact e-mail: rodacal@rodacal.com
Web site: www.rodacal.com
Phone: + 34 967 44 00 18 / +34 967 44 21 57

1.4. Emergency telephone number:

Emergency telephone number: +34 967440018 (08:30-13:30 - 16:00-19:00)
National Toxicology Centre: +34915620420
Emergency General Telephone: 112 (Spain)

SECTION 2: HAZARDS IDENTIFICATION

2.1. Classification of the substance or mixture:

CLP Regulation (EC) No 1272/2008

Classification of this product has been carried out in accordance with CLP Regulation (EC) No 1272/2008.

Eye Dam. 1: Serious eye damage, Category 1, H318

Skin Irrit. 2: Skin irritation, Category 2, H315

Skin Sens. 1B: Sensitisation skin, Category 1B, H317

STOT SE 3: Respiratory tract toxicity, single exposure, Category 3, H335

2.2. Label elements:

CLP Regulation (EC) No 1272/2008:

Danger

Hazard statements:

Eye Dam. 1: H318. Causes serious eye damage.

Skin Irrit. 2: H315. Causes skin irritation.

Skin Sens. 1B: H317. May cause an allergic skin reaction.

STOT SE 3: H335. May cause respiratory irritation.

Code: FS/120
Revision No: 2
Last revision date: 09/04/2025
Date of compilation: 18/06/2021

SAFETY DATA SHEET

This SDS is an english translation of COMMISSION REGULATION (EU) 2020/878, without any country-specific legislation

Precautionary statements:

P101: If medical advice is needed, have product container or label at hand.
P102: Keep out of reach of children.
P103: Read label before use.
P261: Avoid breathing dust
P280: Wear protective gloves/protective clothing/respiratory protection/eye protection/protective footwear.
P302+P352: IF ON SKIN: Wash with plenty of water.
P304+P340: IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P403+P233: Store in a well-ventilated place. Keep container tightly closed.
P501: Dispose of the contents/containers in accordance with the regulations on hazardous waste or packaging and packaging waste respectively.

Substances that contribute to the classification

Cement portland, chemicals

The mixture contains soluble Cr (VI) and some individuals may develop an allergic reaction. The mixture contains a low content of soluble Cr (VI) as the cement used in their preparation maintains its level below 2 mg/kg (0,0002 %) of the total dry weight of the cement ready for use, according to the legislation set out in section 15.

Safety data sheet available to the professional user who requests it.

2.3. Other hazards:

This product contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0,1% or higher.

The product does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0,1% or higher.

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Substance

Non-applicable

3.2 Mixture:

Chemical description: Solution of additives, aggregates and cements

Components:

In accordance with Annex II of Regulation (EC) No 1907/2006 (point 3), the product contains:

Identification	Chemical name/Classification		Concentration
CAS: 65997-15-1 CE: 266-043-4 Index: Non-applicable REACH: Non-applicable	Cement portland, Cr (VI) < 2 ppm¹ Self-classified		10 - 50 %
	Regulation 1272/2008	Eye Dam. 1: H318; Skin Irrit. 2: H315; Skin Sens. 1B: H317; STOT SE 3: H335-Peligro 	

¹ Substances presenting a health or environmental hazard which meet criteria laid down in Regulation (EU) No. 2020/878

To obtain more information on the hazards of the substances consult sections 11, 12 and 16.

Code: FS/120
Revision No: 2
Last revision date: 09/04/2025
Date of compilation: 18/06/2021

SAFETY DATA SHEET

This SDS is an english translation of COMMISSION REGULATION (EU) 2020/878, without any country-specific legislation

SECTION 4: FIRST AID MEASURES

4.1. Description of first aid measures:

The symptoms resulting from intoxication can appear after exposure, therefore, in case of doubt, seek medical attention for direct exposure to the chemical product or persistent discomfort, showing the SDS of this product.

By inhalation:

Remove the person affected from the area of exposure, provide with fresh air and keep at rest. In serious cases such as cardiorespiratory failure, artificial resuscitation techniques will be necessary (mouth to mouth resuscitation, cardiac massage, oxygen supply, etc.) requiring immediate medical assistance.

By skin contact:

Remove contaminated clothing and footwear, rinse skin or shower the person affected if appropriate with plenty of cold water and neutral soap. In serious cases see a doctor. If the product causes burns or freezing, clothing should not be removed as this could worsen the injury caused if it is stuck to the skin. If blisters form on the skin, these should never be burst as this will increase the risk of infection.

By eye contact:

Rinse eyes thoroughly with lukewarm water for at least 15 minutes. Do not allow the person affected to rub or close their eyes. If the injured person uses contact lenses, these should be removed unless they are stuck to the eyes, in which case this could cause further damage. In all cases, after cleaning, a doctor should be consulted as quickly as possible with the SDS of the product.

By ingestion/aspiration:

Do not induce vomiting, but if it does happen keep the head down to avoid aspiration. Keep the person affected at rest. Rinse out the mouth and throat, as they may have been affected during ingestion.

4.2. Most important symptoms and effects, both acute and delayed:

Acute and delayed effects are indicated in sections 2 and 11.

4.3. Indication of any immediate medical attention and special treatment needed:

Not relevant

SECTION 5: FIREFIGHTING MEASURES

5.1. Extinguishing media:

Suitable extinguishing media:

Product is non-flammable under normal conditions of storage, handling and use. In the case of combustion as a result of improper handling, storage or use preferably use polyvalent powder extinguishers (ABC powder), in accordance with the Regulation on fire protection systems.

Unsuitable extinguishing media:

Non-applicable

5.2. Special hazards arising from the substance or mixture:

The product is not flammable, it is not explosive and does not enable or feed combustion in other materials.

5.3. Advice for firefighters

Depending on the magnitude of the fire it may be necessary to use full protective clothing and self-contained breathing apparatus (SCBA). Minimum emergency facilities and equipment should be available (fire blankets, portable first aid kit, ...) in accordance with Directive 89/654/EC.

Code: FS/120
Revision No: 2
Last revision date: 09/04/2025
Date of compilation: 18/06/2021

SAFETY DATA SHEET

This SDS is an english translation of COMMISSION REGULATION (EU) 2020/878, without any country-specific legislation

Additional provisions:

Act in accordance with the Internal Emergency Plan and the Information Sheets on actions to take after an accident or other emergencies. Eliminate all sources of ignition. In case of fire, cool the storage containers and tanks for products susceptible to combustion, explosion or BLEVE as a result of high temperatures. Avoid spillage of the products used to extinguish the fire into an aqueous medium.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures:

For non-emergency personnel

Sweep up and shovel product or collect by other means and place in container for reuse (preferred) or disposal. See sections 8 and 13.

For emergency responders

Wear protective equipment. Keep unprotected persons away. See section 8.

6.2. Environmental precautions:

This product is not classified as hazardous to the environment. Keep product away from drains, surface and ground water.

6.3. Methods and material for containment and cleaning up:

It is recommended:

Sweep up and shovel product or collect by other means and place in container for reuse (preferred) or disposal

6.4. Reference to other sections:

See sections 8 and 13.

SECTION 7: HANDLING AND STORAGE

7.1. Precautions for safe handling:

A. General precautions for safe use:

Use in ventilated areas. Avoid the formation and accumulation of dust.

Comply with current legislation on occupational hazards in terms of manual handling of loads. Maintain order and cleanliness and dispose of by safe methods (section 6).

B. Technical recommendations for the prevention of fires and explosions:

Non-flammable product under normal conditions of storage, handling and use. It is recommended to transfer at slow speeds to avoid the generation of electrostatic charges that could affect flammable products. Consult section 10 on conditions and materials that must be avoided.

C. Technical recommendations to prevent ergonomic and toxicological risks:

For exposure control see section 8. Do not eat, drink or smoke in work areas; wash hands after each use and remove contaminated clothing and protective equipment before entering eating areas.

D. Technical recommendations to prevent environmental risks:

Under community environmental protection legislation, it is recommended to avoid dumping both the product and its packaging into the environment. It is recommended to have absorbent material in the vicinity of the product.

Code: FS/120
Revision No: 2
Last revision date: 09/04/2025
Date of compilation: 18/06/2021

SAFETY DATA SHEET

This SDS is an english translation of COMMISSION REGULATION (EU) 2020/878, without any country-specific legislation

7.2. Conditions for safe storage, including any incompatibilities:

A. Technical measures for storage:

ITC (R.D. 656/2017): Not relevant

Classification: Not relevant

Minimum temperature: 5°C

Maximum temperature: 35°C

Maximum time: 12 months

B. General conditions for storage:

Avoid sources of heat, radiation, static electricity and contact with food. For additional information see subsection 10.5 Keep the container tightly sealed and protected from open air and humidity.

7.3. Specific end use(s):

Except for the instructions already specified it is not necessary to provide any special recommendation regarding the uses of this product.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control Parameters:

Substances whose occupational exposure limits have to be monitored in the workplace (European OEL, not country-specific legislation):

Nuisance dust: Inhalable dust 10 mg/m³ // Respirable dust 4 mg/m³

DNEL (Workers):

Not relevant

DNEL (General population):

Not relevant

PNEC:

Not relevant

8.2 Exposure controls:

A. Individual protection measures, such as personal protective equipment:

As a preventative measure it is recommended to use basic Personal Protective Equipment, with the corresponding <<CE marking>> in accordance with Regulation (EU) 2016/425. For more information on Personal Protective Equipment (storage, use, cleaning, maintenance, class of protection, ...) consult the information leaflet provided by the manufacturer. For more information see subsection 7.1. All information contained herein is a recommendation which needs some specification from the labour risk prevention services as it is not known whether the company has additional measures at its disposal.

B. Respiratory protection:

Pictogram	PPE	Labelling	CEN Standard	Remaks
 Mandatory respiratory tract protection	Filter mask for gases, vapours and particles		EN 149 EN 405 EN ISO 136	Replace when an increase in resistance to breathing is observed and/or a smell or taste of the contaminant is detected.

C. Specific protection for the hands:

Code: FS/120
 Revision No: 2
 Last revision date: 09/04/2025
 Date of compilation: 18/06/2021

SAFETY DATA SHEET

This SDS is an english translation of COMMISSION REGULATION (EU) 2020/878, without any country-specific legislation

Pictogram	PPE	Labelling	CEN Standard	Remaks
 Mandatory hands protection	Chemical protective gloves (Material: Nitrile, Breakthrough time: > 480 min, Thickness: 0,15 mm)		EN ISO 21420	Replace gloves in case of any sign of damage.

As the product is a mixture of several substances, the resistance of the glove material can't be calculated in advance with total reliability and has therefore to be checked prior to the application.

D. Ocular and facial protection:

Pictogram	PPE	Labelling	CEN Standard	Remaks
 Mandatory face protection	Panoramic glasses against splash/projections		EN 166 EN ISO 4007	Clean daily and disinfect periodically according to the manufacturer's instructions. Use if there is a risk of splashing

E. Body protection:

Pictogram	PPE	Labelling	CEN Standard	Remaks
	Work clothing			Replace before any evidence of deterioration. For periods of prolonged exposure to the product for professional/industrial users CE III is recommended, in accordance with the regulations in EN ISO 6529, EN ISO 6530, EN ISO 13688, EN 464.
	Anti-slip work shoes		EN ISO 20347	Replace before any evidence of deterioration. For periods of prolonged exposure to the product for professional/industrial users CE III is recommended, in accordance with the regulations in EN ISO 20345 y EN 13832-1

F. Additional emergency measures:

Emergency measure	Standards	Emergency measure	Standards
 Emergency shower	ANSI Z358-1 ISO 3864-1 ISO 3864-4	 Eyewash stations	DIN 12 899 ISO 3864-1 ISO 3864-4

Environmental exposure controls:

In accordance with the community legislation for the protection of the environment it is recommended to avoid environmental spillage of both the product and its container. For additional information see subsection 7.1.D

Code: FS/120
Revision No: 2
Last revision date: 09/04/2025
Date of compilation: 18/06/2021

SAFETY DATA SHEET

This SDS is an english translation of COMMISSION REGULATION (EU) 2020/878, without any country-specific legislation

Volatile organic compounds:

Whit regard to Directive 2010/75/EU, this product has the following characteristics:

V.O.C (Supply): 0% weight
V.O.C density at 20°C: 0 kg/m³ (0 g/L)
Average carbon number: Not relevant
Average molecular weight: Not relevant

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties:

For complete information see the product datasheet.

Appearance:

Physical state at 20 °C: Solid
Appearance: Powdery
Colour: Not available
Odour: Not available
Odour threshold: Not relevant*

Volatility:

Boiling point at atmospheric pressure: Not relevant*
Vapour pressure at 20 °C: Not relevant*
Vapour pressure at 50 °C: Not relevant*
Evaporation rate at 20 °C: Not relevant*

Product description:

Density at 20 °C: No relevant*
Relative density at 20 °C: Not relevant*
Dynamic viscosity at 20 °C: Not relevant*
Kinematic viscosity at 20 °C: Not relevant*
Kinematic viscosity at 40 °C: Not relevant*
Concentration: Not relevant*
pH: Not relevant*
Vapour density at 20 °C: Not relevant*
Partition coefficient n-octanol/water 20 °C: Not relevant*
Solubility in water at 20 °C: Not relevant*
Solubility properties: Not relevant*
Decomposition temperature: Not relevant*
Melting point/freezing point: Not relevant*

Flammability:

Flash Point: Non-applicable *
Flammability (solid, gas): Not relevant*
Autoignition temperature: Not relevant*
Lower flammability limit: Not relevant*
Upper flammability limit: Not relevant*

Explosive:

Lower explosive limit: Not relevant*
Upper explosive limit: Not relevant*

Particle characteristics:

Median equivalent diameter: Not relevant*

Code: FS/120
Revision No: 2
Last revision date: 09/04/2025
Date of compilation: 18/06/2021

SAFETY DATA SHEET

This SDS is an english translation of COMMISSION REGULATION (EU) 2020/878, without any country-specific legislation

9.2 Other information:

Information with regard to physical hazard classes:

Explosive properties: Not relevant*

Oxidising properties: Not relevant*

Corrosive to metals: Not relevant*

Heat of combustion: Not relevant*

Aerosols-total percentage (by mass) of flammable components: Not relevant*

Other safety characteristics:

Surface tension at 20 °C: Not relevant*

Refraction index: Not relevant*

*Not relevant due to the nature of the product, not providing information property of its hazards.

SECTION 10: STABILITY AND REACTIVITY

10.1 Reactivity:

No hazardous reactions are expected because the product is stable under recommended storage conditions. See section 7.

10.2 Chemical stability:

Chemically stable under the indicated conditions of storage, handling and use.

10.3 Possibility of hazardous reactions:

Under the specified conditions, hazardous reactions that lead to excessive temperatures or pressure are not expected.

10.4 Conditions to avoid:

Applicable for handling and storage at room temperature:

Shock and friction	Contact with air	Increase in temperature	Sunlight	Humidity
Not applicable	Not applicable	Not applicable	Not applicable	Avoid direct impact

10.5 Incompatible materials:

Acids	Water	Oxidising materials	Combustible Materials	Others
Incompatible	Silicate formation and calcium hydroxide	Not applicable	Not applicable	Base metal salts

10.6 Hazardous decomposition products:

See section 10.3, 10.4 and 10.5 to know the decomposition products specifically. Depending on the decomposition conditions, complex mixtures of chemicals can be released as a result of decomposition: carbon dioxide (CO₂), carbon monoxide and other organic compounds.

SECTION 11: TOXICOLOGICAL INFORMATION

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008:

The experimental information related to the toxicological properties of the product itself is not available.

Code: FS/120
Revision No: 2
Last revision date: 09/04/2025
Date of compilation: 18/06/2021

SAFETY DATA SHEET

This SDS is an english translation of COMMISSION REGULATION (EU) 2020/878, without any country-specific legislation

Dangerous health implications:

In case of exposure that is repetitive, prolonged or at concentrations higher than the recommended occupational exposure limits, adverse effects on health may result, depending on the means of exposure:

A. Ingestion (acute effect):

Acute toxicity: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for consumption. For more information see section 3.

Corrosivity/Irritability: The consumption of a considerable dose can cause irritation in the throat, abdominal pain, nausea and vomiting.

B. Inhalation (acute effect):

Acute toxicity: Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous for inhalation. For more information see section 3.

Corrosivity/Irritability: Causes irritation in respiratory passages, which is normally reversible and limited to the upper respiratory passages.

C. Contact with the skin and the eyes (acute effect):

Contact with the skin: Produces skin inflammation.

Contact with the eyes: Produces serious eye damage after contact.

D. CMR effects (carcinogenicity, mutagenicity and toxicity to reproduction):

Carcinogenicity: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for the effects mentioned. For more information see section 3.

Mutagenicity: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

Reproductive toxicity: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

E. Sensitizing effects:

Respiratory: Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous with sensitising effects. For more information see section 3.

Cutaneous: Prolonged contact with the skin can result in episodes of allergic contact dermatitis.

F. Specific target organ toxicity (STOT) - single exposure:

Causes irritation in respiratory passages, which is normally reversible and limited to the upper respiratory passages.

G. Specific target organ toxicity (STOT)-repeated exposure:

Specific target organ toxicity (STOT)-repeated exposure: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

Skin: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

H. Aspiration hazard:

Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

Other information:

Contact with human skin, without adequate protection, can result in skin thickening, cracking, or fissuring.

Specific toxicology information on the substances:

Not available

Code: FS/120
Revision No: 2
Last revision date: 09/04/2025
Date of compilation: 18/06/2021

SAFETY DATA SHEET

This SDS is an english translation of COMMISSION REGULATION (EU) 2020/878, without any country-specific legislation

11.2 Information on other hazards:

Endocrine disrupting properties

The product fails to meet the criteria due to its endocrine-disrupting properties.

Other information

Not relevant

SECTION 12: ECOLOGICAL INFORMATION

The experimental information related to the eco-toxicological properties of the product itself is not available. Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

12.1 Toxicity:

Not available

12.2 Persistence and degradability:

Not available

12.3 Bioaccumulative potential:

Not available

12.4 Mobility in soil:

Not available

12.5 Results of PBT and vPvB assessment:

Product fails to meet PBT/vPvB criteria.

12.6 Endocrine disrupting properties:

The product fails to meet the criteria due to its endocrine-disrupting properties.

12.7 Other adverse effects:

Not described

SECTION 13: DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods:

Code	Description	Waste class (Regulation (EU) No 1357/2014)
16 03 03*	Inorganic wastes containing hazardous substances	Dangerous

Product - Cement that has exceeded its useful life: 10 13 99

Product - Unused residue or dry spill: 10 13 06

Product - after addition of water, hardened: 10 13 14, 17 01 01

Type of waste (Regulation (EU) No 1357/2014):

HP5 Specific Target Organ Toxicity (STOT)/Aspiration Toxicity, HP13 Sensitising, HP4 Irritant — skin irritation and eye damage

Code: FS/120
Revision No: 2
Last revision date: 09/04/2025
Date of compilation: 18/06/2021

SAFETY DATA SHEET

This SDS is an english translation of COMMISSION REGULATION (EU) 2020/878, without any country-specific legislation

Waste management (disposal and evaluation):

Consult the authorized waste service manager on the assessment and disposal operations in accordance with Annex 1 and Annex 2 (Directive 2008/98/EC). As under 15 01 (2014/955/EC) of the code and in case the container has been in direct contact with the product, it will be processed the same way as the actual product. Otherwise, it will be processed as non-hazardous residue. We do not recommended disposal down the drain. See paragraph 6.2.

Regulations related to waste management:

In accordance with Annex II of Regulation (EC) No 1907/2006 (REACH) the community or state provisions related to waste management are stated.

Community legislation: Directive 2008/98/EC, 2014/955/EU, Regulation (EU) No 1357/2014

SECTION 14: TRANSPORT INFORMATION

This product is not regulated for transport (ADR/RID, IMDG, IATA)

SECTION 15: REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture:

Candidate substances for authorisation under the Regulation (EC) No 1907/2006 (REACH): Not relevant

Substances included in Annex XIV of REACH ("Authorisation List") and sunset date: Not relevant

Regulation (EC) No 1005/2009, about substances that deplete the ozone layer: Not relevant

Article 95, REGULATION (EU) No 528/2012: Not relevant

REGULATION (EU) No 649/2012, in relation to the import and export of hazardous chemical products: Not relevant

Seveso III:

Not relevant

Limitations to commercialisation and the use of certain dangerous substances and mixtures (Annex XVII REACH):

1. Cement and cement-containing mixtures shall not be placed on the market, or used, if they contain, when hydrated, more than 2 mg/kg (0,0002%) soluble chromium VI of the total dry weight of the cement.

2. If reducing agents are used, then without prejudice to the application of other Community provisions on the classification, packaging and labelling of substances and mixtures, suppliers shall ensure before the placing on the market that the packaging of cement or cement-containing mixtures is visibly, legibly and indelibly marked with information on the packing date, as well as on the storage conditions and the storage period appropriate to maintaining the activity of the reducing agent and to keeping the content of soluble chromium VI below the limit indicated in paragraph 1.

3. By way of derogation, paragraphs 1 and 2 shall not apply to the placing on the market for, and use in, controlled closed and totally automated processes in which cement and cement-containing mixtures are handled solely by machines and in which there is no possibility of contact with the skin.

Specific provisions in terms of protecting people or the environment:

It is recommended to use the information included in this safety data sheet as a basis for conducting workplace-specific risk assessments in order to establish the necessary risk prevention measures for the handling, use, storage and disposal of this product.

Other legislation:

Regulation (CE) No. 1272/2008 of the European Parliament and of the Council, of December 16, 2008, on the classification, labeling and packaging of substances and mixtures, and by which Directives 67/548/CEE and 1999 are modified and repealed /45/CE and modifies Regulation (CE) No 1907/2006 and all its subsequent modifications.

Code: FS/120
Revision No: 2
Last revision date: 09/04/2025
Date of compilation: 18/06/2021

SAFETY DATA SHEET

This SDS is an english translation of COMMISSION REGULATION (EU) 2020/878, without any country-specific legislation

15.2 Chemical safety assessment:

The supplier has not carried out evaluation of chemical safety.

SECTION 16: OTHER INFORMATION

Legislation related to safety data sheets:

The SDS shall be supplied in an official language of the country where the product is placed on the market. This safety data sheet has been designed in accordance with ANNEX II-Guide to the compilation of safety data sheets of Regulation (EC) No 1907/2006 (COMMISSION REGULATION (EU) 2020/878).

Modifications related to the previous Safety Data Sheet which concerns the ways of managing risks:

COMMISSION REGULATION (EU) 2020/878

CLP Regulation (EC) No 1272/2008 (SECTION 2, SECTION 16)

Texts of the legislative phrases mentioned in section 2:

H315: Causes skin irritation.

H318: Causes serious eye damage.

H335: May cause respiratory irritation.

H317: May cause an allergic skin reaction.

Texts of the legislative phrases mentioned in section 3:

The phrases indicated do not refer to the product itself; they are present merely for informative purposes and refer to the individual components which appear in section 3.

CLP Regulation (EC) No 1272/2008:

Eye Dam. 1: H318 - Causes serious eye damage.

Skin Irrit. 2: H315 - Causes skin irritation.

Skin Sens. 1B: H317 - May cause an allergic skin reaction.

STOT SE 3: H335 - May cause respiratory irritation.

Classification procedure:

Skin Irrit. 2: Calculation method

Eye Dam. 1: Calculation method

STOT SE 3: Calculation method

Skin Sens. 1B: Calculation method

Advice related to training:

Minimal training is recommended in order to prevent industrial risks for staff using this product and to facilitate their comprehension and interpretation of this safety data sheet, as well as the label on the product.

REACH: Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency

The information contained in this safety data sheet is based on sources, technical knowledge and current legislation at European and state level, without being able to guarantee its accuracy. This information cannot be considered a guarantee of the properties of the product, it is simply a description of the security requirements. The occupational methodology and conditions for users of this product are not within our awareness or control, and it is ultimately the responsibility of the user to take the necessary measures to obtain the legal requirements concerning the manipulation, storage, use and disposal of chemical products. The information on this safety data sheet only refers to this product, which should not be used for needs other than those specified.
